Assessment of the Security

NOTES – Assessment of the security is how we will determine if the property is suitable to secure the loan. There are a number of approaches we may utilise for this assessment, including:

Mortgage valuation, Automated Valuation Model, Desktop valuation – these are all simply for us to decide if the property is suitable to secure the loan and if it is worth the amount we are lending to you. It is important to understand that these are very limited and will not potentially raise any hidden problems. For purchase applications, we will normally give you a copy of our assessment. This assessment does not cover everything about the property's condition. There could be faults that would only be found on a more detailed inspection. The valuer may notice something wrong but may decide not to put it in the report. This is because the report will only contain information which is important in deciding whether the value of the property will cover the amount we are lending you. Please do not think the property has no faults just because there are none in the report. If any faults are mentioned, these may not be the only ones in the property.

RICS Homebuyer Survey and Valuation – a Homebuyer Survey and Valuation is a survey on the condition of the property and covers all parts of the property which are easily accessible. The surveyor will be able to give you a general opinion of the property. It will detail any future problems that can be foreseen and will tell you if any areas need further investigation. If you ask your own surveyor to do a Homebuyer Survey and Valuation or detailed building survey, rather than arranging this through us, an additional mortgage valuation by a valuer approved by us may be necessary.

Detailed building survey – a detailed building survey covers the same points as the Homebuyer Survey and Valuation but in much more detail. If there are any problems or faults with the property the surveyor will explain what may have caused them and how to put them right.

Please indicate the type of valuation you require

VALUATION REPORT FOR MORTGAGE PURPOSES

The Society is required by law to obtain an independent mortgage valuation report. This is a limited report and is not a survey of the property. This report will provide basic details of the property for the Society which are sufficient to enable us to decide whether to make a loan on the particular property. You would not be able to rely on this report as it is addressed to us for Mortgage purposes. For your own interest we strongly recommend that you have a detailed survey carried out by a suitably qualified independent Surveyor.

HOME BUYER SURVEY AND VALUATION REPORT

This report is specifically designed for people who are seeking a professional opinion at an economic price. It is completed on a standard format by a chartered surveyor and is aimed at helping the client make a reasoned and informed decision on whether to purchase the property, gives an opinion on what is a reasonable price to pay, takes account of repairs or replacements the property needs and outlines what further advice may be needed before proceeding. The report will be subject to terms of engagement which must be agreed directly with the surveyor who will act independently on your behalf. The Society may be able to arrange this type of report for you in conjunction with the mortgage valuation report.

DETAILED BUILDING SURVEY
(Formerly known as Structural Survey)

A detailed building survey covers the same points as the Homebuyer Survey and Valuation but in much more detail. If there are any problems or faults with the property the surveyor will explain what may have caused them and how to put them right. The Society will still require a mortgage valuation report for mortgage purposes.
